3.3 – My Own List

The screenshot shows a code editor window with a dark theme. The editor has a tab titled 'my_own_list.py'. The code in the editor is as follows:

```
1 cars = ["Honda", "BMW", "Toyota", "Mercedes", "Tesla"]
2 for car in cars:
3     print("I would like to own a " + car + " car.")
4
```

Below the editor is a terminal window. The terminal shows the command to run the script and its output:

```
stjerneva@Stjernevas-MacBook-Pro ~ % /usr/local/bin/python3 /Users/stjerneva/Desktop/my_own_list.py
I would like to own a Honda car.
I would like to own a BMW car.
I would like to own a Toyota car.
I would like to own a Mercedes car.
I would like to own a Tesla car.
stjerneva@Stjernevas-MacBook-Pro ~ %
```

The terminal window also shows the file path and the command used to run the script.
